Before starting your journey

Before starting, Have you checked the following things?

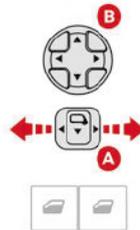

- ✓ Have you answered the question in the cambio app regarding possible car damage?
- ✓ Have you answered the question in the app concerning the cleanliness of the interior/ exterior of the car?

Adjust side mirrors

Controls are located on the driver's door:

- A Select left or right mirror.
- B Adjust the position further by using the arrows.

! Please put **A** back in neutral position after adjusting.

Starting the vehicle

Start-Stop function

When this is switched on, the motor turns off each time you stop, and on each time you push in the clutch. To turn this function off or on you press the button underneath the ventilation grill left of the steering wheel.

Hand brake

To unlock the hand brake, you **pull up the lever** slightly **whilst pressing** the button on the outer end. Now carefully push down the lever. The symbol on your dashboard screen will disappear.

On the road

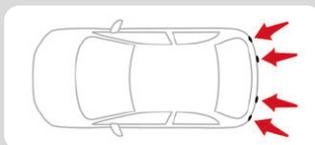

Reverse gear

Pull the ring under the top part of the gear shift up and move the gear shift first to the left and then forward.

Park assistance

This car has a built-in **park assistance** system with **back camera** and sensor. Whenever you drive in reverse and come closer to an object, you will hear the parking **sensors** beeping faster. **Visual cues** will be displayed on the touchscreen front centre.

Ventilation and airconditioning

1. Automatic ruling of temperature, air distribution...
2. **Desired temperature**
3. Defogging front window
4. **Air distribution (windscreen, feet..)**
5. **Airco at its max(imum)**
6. Air circulation (out-in)
7. Rear window heating
8. Switch on/off airco
9. Fan speed

Cruise control & Speed limiter

Left on the steering wheel.

1. Choose the cruise control or speed limiter mode.
2. Start or stop the cruise control or speed limiter with the pre-saved speed limit.
3. **Adjust the pre-saved speed limit.**

Middle switch: navigate through the menus of configuration.

The information concerning cruise control is displayed on the configuration panel. For more info, see car manual.

Headlights

Lights: Use the handle left on the steering wheel to turn on/off the lights.

(only) Parking light on

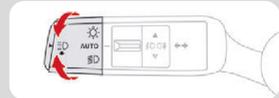

Automatic lighting

Low beams

Pull the handle towards you to turn on the high beams

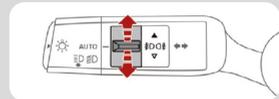

Fog lights: Move the handle up- or downwards to control the fog lights.

Front: Push the handle upwards once.

Rear: Push the handle upwards twice.

Wipers

Front wipers:

2 = high speed (heavy rain/hail)

1 = normal speed (light rain)

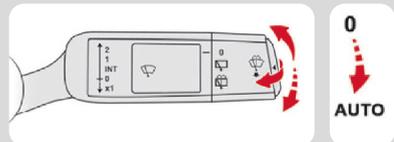

I = interval

0 = off

Auto = switches on when it's raining, snowing... Pull the handle towards you to use the sprinklers.

Rear wipers:

Turn the ring once to the front to activate the rear wipers (interval). Turn once more to sprinkle and wipe the rear window.

Move the handle (right side steering wheel) upwards in the following positions (see image).

SOS- button

Please **do not use the SOS-button and Assistance-button** on the dashboard. In case of an emergency, the emergency services will be notified automatically. If you have a car problem that is not considered an emergency, please call our Cambio helpcenter.

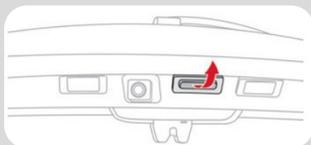

Spare wheel

The spare wheel is stored underneath the car. You have to unscrew it (see screw left in the car boot). The necessary tools are also stored there (see bag underneath the false floorboard).

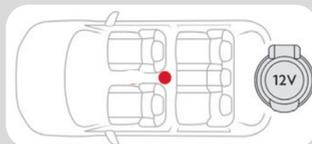

How to open boot

After unlocking the vehicle, you can open the boot by using the button right of the rear view camera.

12V socket

Situated in the middle between the driver's and passenger's seat (see image).

Fuel cap (always fuel with Petrol/Euro95)

Left rear end. Whilst fuelling, you can leave the fuel cap on the provided hook on the lid (see image).

Navigation

No GPS. Android Auto/Apple CarPlay possible by connecting using Bluetooth on your phone or with USB-cable in the USB-A port (next to 12V-connection).
